

...A Diagnosis of Lyme Disease

My health journey began in the spring of 2000. I had been bitten by a deer tick while camping with my family. It was six weeks before I started to have symptoms that moved me to go to the doctor. I was given a misdiagnosis of MS and spent over 2 yrs. trying to get a doctor to listen to me. In the spring of 2003, I was diagnosed with Lyme disease along with 2 co-infections by Dr. William Harvey in Houston, Texas. He treated me for almost 2 yrs. with IV rocephin and numerous other very strong antibiotics.

After he retired, I found a wonderful chronic neurological Lyme doctor from Dallas, TX named Hamid Moayad. He treated me with various oral antibiotics as well as several alternative treatments. I was under his care for over 4 yrs. before he told me that we had exhausted all treatments.

I was left to wait around for a new protocol to come my way. After over 6 months of waiting, I was made aware of a trial study taking place in Urbandale, IA. In July of 2011, I arrived at the clinic and was very hopeful that this protocol was what we had been praying for. I was introduced to GeAnna Clem who advised me on the following products that I currently use on a regular basis. I purchased a kangaroo water machine, detox foot spa, nutraceuticals, restore laser, cold laser treatments, and recently I purchased a LazRPulsR home unit.

While in Iowa that summer, I had 13 laser sessions at the clinic before returning to Texas. Since then, I've returned for an additional 10 laser sessions in the past year. Since starting the protocol, my health has gone from an inability to read and write without confusion and being bedridden to being independent and strong. I've been able to discontinue almost all of my medications and have replaced them with a healthy diet, exercise, living a lifestyle that is positive with plenty of rest. Balancing these things has been very challenging but healing has come with discipline. I know that it saved my life and my family. I'm looking forward to returning to my life and focusing on the opportunities that are ahead of me.

A.M.- San Antonio, TX
