

Staphylococcal Infections

This is a 27 day procedure for staphylococcal infection. Other bacterial infections may resolve with a much shorter protocol. However, if you are not sure it is better to utilize this protocol than let a Staph infection get out of control.

Staph infections are quite common and becoming more common all the time. They are usually acquired in a hospital setting. This means that any wound or surgical procedure that was treated in an emergency room or hospital setting has a higher risk of being infected with the Staphylococcal bacteria than other wounds. These infections will retard and complicate the healing of the wound. Occasionally these infections can become systemic in the body and even life threatening.

Any wound or surgical site that is slow to heal or continues to stay inflamed should be considered infected with some sort of bacterial pathogen and possibly even Staph. It is highly recommended that the wound be treated as an infection regardless. If laboratory tests rule out infections later on, this procedure will do no harm and will still enhance the body's immune system and support complete healing of the wound.

With early detection and quick application of the following protocol the body should be able to resolve these infections without incident.

Dr.Gerry Graham III

LazrPulsr Mk III Treatment Record ~ Staph Infection Protocol 07/27/15

Follow with General health procedures

Patient Name _____ Number _____

Day #1 ____/____/____ 50 min ___ #678 Neuro Health (50) Run one time under Chin	Day #10 ____/____/____ 40 min ___ #681 Bacterial Infection (20) Run entire program on Rt Ear 2 times today	Day #19 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today
Day #2 ____/____/____ 60 min ___ #542 Staph Infection (60)	Day #11 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today	Day #20 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today
Day #3 ____/____/____ 50 min ___ #679 Detoxification (50) Run entire program on Rt Ear	Day #12 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today	Day #21 ____/____/____ 54 min ___ #654 Structural Balance (14) ___ Sensitivity Protocol Step 1 (40)
Day #4 ____/____/____ 50 min ___ #678 Neuro Health (50) Run entire program on Rt Ear	Day #13 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today	Day #22 ____/____/____ 252 min ___ #654 Structural Balance (14) ___ Sensitivity Protocol Step 2 (20)
Day #5 ____/____/____ 40 min ___ #681 Bacterial Infection (20) Run entire program on Rt Ear 2 times today	Day #14 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today	Day #23 ____/____/____ 44 min ___ #654 Structural Balance (14) ___ Sensitivity Protocol Step 3 (30)
Day #6 ____/____/____ 40 min ___ #681 Bacterial Infection (20) Run entire program on Rt Ear 2 times today	Day #15 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today	Day #24 ____/____/____ 34 min ___ #654 Structural Balance (14) ___ Sensitivity Protocol Step 4 (20)
Day #7 ____/____/____ 40 min ___ #681 Bacterial Infection (20) Run entire program on Rt Ear 2 times today	Day #16 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today	Day #25 ____/____/____ 74 min ___ #654 Structural Balance (14) ___ Sensitivity Protocol Step 5 (60)
Day #8 ____/____/____ 40 min ___ #681 Bacterial Infection (20) Run entire program on Rt Ear 2 times today	Day #17 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today	Day #26 ____/____/____ 82 min ___ #654 Structural Balance (14) ___ Sensitivity Protocol Step 6 (68)
Day #9 ____/____/____ 40 min ___ #681 Bacterial Infection (20) Run entire program on Rt Ear 2 times today	Day #18 ____/____/____ 40 min ___ #666 Emotional Stress (20) Run entire program on Rt Ear 2 times today	Day #27 ____/____/____ 24 min ___ #655 Maintenance (24)

Instructions ~ Warnings

(NO DIET SWEETENERS! Not even Stevia)

Follow all Brochure recommendations for diet and nutrition.
 Completing protocol should help reduce the risk of returning.

Nutrition: From Standard Process, THESE ARE REQUIRED!

Cataplex C 6 tabs 2 times a day for 10 Days

Due to the time and frequency of some steps of this protocol the rental of a home therapy unit may be necessary to complete this protocol.
