

Dear Health Care Provider,

We at LazrPulsr system believe that the best form of health care is to start with the Foundational Health Care Procedure. This begins forming a more stable foundation for your health that you can build better health on. However we understand that this is not always possible and in an office environment many times you need to treat the primary complaint as soon as possible. Therefore we have created this therapy guide to help providers and patients develop the best therapies for any given condition.

This Guide is specific for the LazrPulsr 4X Mk III Personal and Professional Health Care System. For the Mk III Home therapy systems please refer to the Mk III Home Therapy programs link on this site.

How to use this Therapy Guide:

Column 1 is a list of about 95 different symptoms listed in alphabetic order. Find the closest symptom that meets your patient's in this column.

Column 2 is a list of numbers that relate to the nutritional supplements at the end of this guide. These Standard Process nutritional supplements directly support the selected symptom and were developed by Mark Anderson of Standard Process West. Utilize these nutrients or nutrients of equal quality for best results. They should be available from the Health Care professional that prescribed this therapy laser for your use.

Column 3 list therapy programs that are contained in the Mk III Personal and Professional Therapy Laser that are directly related to the selected symptom. However, there can be many different causes for each symptom. So even though we tried to list these procedures in the typical order of priority, each patient is unique and the user should select the programs from this list that best fit the needs of each patient.

This list utilizes 3 different types of programs that are found in the Mk III therapy system.

Programs in Red are single frequency programs that should be run under the Chin for 10 min 1 time.

Programs in Blue utilize a Therapy Card which has a homeopathic remedy imprinted on the magnetic strip found on the back side of the card. Run these programs as instructed on the Therapy Card while holding your left finger tips on the magnetic strip. These programs may be run without the Therapy Card but you will usually have diminished results.

Programs in Black were developed for the Home Therapy System. These programs do not require an additional homeopathic remedy as the remedies are already imprinted into the laser itself. Therefore these programs do not come with therapy cards. Perform these programs as described in the Treatment Guide book 2. You can also find an image of all these programs in the Mk III therapy procedures link on our site.

We hope that you find these therapy recommendations useful in your practice.

Dr. Gerry Graham III
President: LazrPulsr System

LazrPulsr 4X Mk III Therapy System ~ Custom Therapy Guide

Programs #001 through #199 Run for 10 minutes each, Place Under Chin

Programs #501 through #649 Run as instructed on the Therapy Card while holding the magnetic strip on the back of the card with your Left Finger tips.

Programs #651 through #685 Run as described in Treatment Guide book 2

All recommendations are placed in approximate order of priority for each condition.

Nutrition Product		Uses ~ Standard Process labs Nutritional Recommendations created by Mark Anderson of Standard Process West
1	A-C Carbamide	Natural diuretic for water retention and edema. Helps prevent and reduce hangovers. Nightmares and bizarre dreams.
2	Allerplex	Systemic support for seasonal allergies affecting the upper respiratory system.
3	Antronex	A natural antihistamine. Chew 4 or 5 at once during sneezing attacks. Reduces discharge and allergic skin rashes. Functionally enhanced with Cal-Amo (#5) or apple cider vinegar.
4	Betafood (or AF Betafood)	Gallbladder related stress. Fats/oil digestion – Lowers bile viscosity. Fat digestion sensitivity or nausea. Methyl donor source for fat metabolism, liver support.
5	Cal-Amo	Normalizes high pH (alkalinity) so common in allergies, bursitis, infections, and joint pain. High pH increases pathogen growth. Functionally similar to apple cider vinegar. Contains acid-forming salts found in seawater.
6	Calcifood Wafers	Complete protein food from raw veal bone and marrow. Source of all 22 amino acids. Endurance food for protein nutrition and ligament support. High-protein canine training treat. A powerful bone food. Chew or grind then swallow.
7	Calcium Lactate (Tablets or Powder)	All-important ionizable calcium for diffusion into tissue fluids. Rapid immune enhancement and muscle relaxation. Teething. Blended with magnesium in 5:1 ratio. Rapidly absorbed. 1 tbsp. = 20 tablets.
8	Cataplex B (or Vasculin)	Nerve stimulating B vitamin group. Increases nerve motor conductivity, innervation and electrical rhythm. Heart valve efficiency. Rhythm stability further enhanced with Tuna Omega-3 Oil (#29).
9	Cataplex C	Collagen forming and building vitamin C complex. Collagen is the protein of ligaments, teeth, skin, and bone. Phagocytosis and immune response, infection, fever, wound healing.
10	Cataplex E ₂ (or Cardio-Plus)	Facilitates oxygen from blood into muscle. Oxygen deprivation is a cause of muscle spasm and fatigue. Resistance to altitude sickness.
11	Cataplex F (T) Tablets Cataplex F (P) Perles	Muscle cramps – tissue calcium starvation – use with Calcium Lactate (#7). Use for resistance to sunburns. Sun and heat sensitivity (hypervitaminosis D – hypercalcemia).
12	Cataplex G	Nerve relaxing B vitamins. Vasodilator. Take with Min-Chex (#25), before bed as a sleep aid. Take with Organically Bound Minerals (#26) for panic; or solo for a gentle nerve relaxer or for tension headaches. Bruxism.
13	Chlorophyll Complex – Ointment (O) Pearls (P)	Ointment: Use for burns, wounds, and lesions. Will stain – cover area. Anti-scaring vitamin E & A complexes and blood-clotting vitamin K. Perles: for faster clotting time and blood building effect of fat soluble chlorophyll. GI Tract inflammation.
14	Cholacol II	Calcium bentonite clay used as adsorbent for food poisoning or gut toxicity and to dry up diarrhea. International travel – combine with Zypan (#32) and Lactic Acid Yeast (#23). Functionally similar to activated charcoal. Take between meals on empty stomach.
15	Collinsonia Root	Vascular tonicity and tension for hemorrhoids and varicose veins.
16	Congaplex	General immune support. Protection against infections and colds. Lymphatic congestion. For acute care take every half hour Available as chewable for children.

17	Cyruta-Plus	Anti-bruising. Leaking or burst capillaries. Skin under the eyes – periocular area – is a tenth as thick as facial skin. Capillary leakage there presents as dark circles. Bleeding gums is often a sign of capillary fragility.
18	Drenamin or Adrenal Desiccated	Anti-stress and chronic fatigue. Naturally energizes adrenals. Trauma, stress, and systemic overload. Adrenal Desiccated for short-term use and Drenamin for long-term support.
19	Fen-Cho or Whole Food Fiber (WWF)	For mild constipation, Fen-Cho is a natural stool softener and WWF is bulk-forming for intestinal motility and elimination. Take at bedtime and upon rising with a full glass of water.
20	Fen-Gre	Expectorant. Blocks formation of mucous and phlegm in respiratory tract. Functional relief for lungs and bronchial tubes. Fenugreek has been used since ancient times to boost the milk supply when nursing.
21	Gastrex	Relieves heartburn, gastritis, and “nervous stomach” symptoms, while soothing and promoting healing of ulcers. Best if taken 10 minutes before meals.
22	Immuplex	Immune system rebuilding and restorative support after repeated infections and treatments.
23	Lactic Acid Yeast Wafers	Produces probiotic lactic acid in the bowel to protect against pathogenic yeast and bacteria overgrowth. Promotes regularity and restoring GI flora and ph. Protects and restores bowel from oral antibiotics.
24	Ligaplex I	Ligament and tendon injury; support for strains, sprains, tears, pulls, and hyper laxity of ligaments.
25	Min-Chex	Natural physiological tranquilizer for minor short-term depression, nervousness, irritability, PMS, and overall stress.
26	Organically Bound Min. (or Min-Tran)	Potassium source and alkaline ash minerals from sea kelp and alfalfa supporting parasympathetic nervous system and heart function.
27	Phosfood Liquid	Phosphorus for sympathetic nervous system support. Helps headaches, gout, bone spurs, bursitis, and tartar buildup on teeth. Often added to spark other protocols.
28	Prolamine Iodine	Protein-bound organic iodine (plant protein) – most readily absorbable form for hormone formation and cell utilization. Thyroid support. Vital for mental and cognitive development. Prenatal, infant and childhood brain development. Childhood cognitive function (along with Tuna Omega-3 Oil #29)
29	Tuna Omega-3 Oil	Essential omega-3 oil rich in EPA and DHA fats for brain development, mood stability, healthy circulation, heart rhythm and vessel support. Sustainably sourced – free of contaminants.
30	USF Ointment	Topical thick salve of essential fatty acids for skin burns (sun, wind, or heat), diaper rash, dermatitis, eczema, chapped lips, dry skin.
31	Wheat Germ Oil Perles	Swallow or chew perles for hair, skin, and nail health. Natural vitamin E complex and essential fats. Puncture and apply perle for topical use to prevent scarring or stretch marks.
32	Zypan	Protein digesting enzymes (proteolytic – pepsin and pancreatin) with hydrochloric acid, taken as digestive aid for gas and flatulence. Uric acid crystals, associated with gout, form from undigested protein. Essential gut protection for foreign travel.
33	Cataplex - ACP	Supports Blood, Epithelial, Connective Tissues. General Resistance to infection. Skin disorders, eye conditions, Inflammation and Congestion.
34	Cyrofood	Multiple vitamin and trace mineral product with raw veal bone. General nutritional, Fatigue & lowered resistance.
35	E Manganese	Anterior Pituitary Disorders. Acute Ligament Injury
36	Garlic	Encourages healthy circulation, liver function, and enhances immune system.
37	Okra-Pepsin	Cleanse intestines and enhance gut absorption. Colitis, diverticulitis, ulcers. Malabsorption syndrome.
38	Water	Artesian Spring water or Filtered, Reverse Osmosis or other quality filtration system
39	Inositol	Diabetes mellitus related circulatory disorders. Muscular, nerve pain & degeneration.
40	Cruciferous Complete	Supports cellular detoxification and health. Liver, Cellular detoxification and Eye health.
41	Catalyn	Multiple vitamin, trace mineral, enzyme source. Twelve raw foods, cold processed and blended.
42	Lact-Enz	Converts all carbohydrate to Lactic Acid. Acidification of GI Tract. Flatulence, halitosis, Toxemia, Malassimilation.
43	Whole Desiccated Spleen	Source of SOD. Inflammation, Toxemia, Loss of intestinal flora, Immune system support.
44	Trace Minerals B ₁₂	Spectrum of minerals including Iodine. Support Ligaments, Cartilage, Bone, Immune and Thyroid support.
45	Renafood	Kidney detoxification and support. Kidney disease, Stones, Renal hypertension, Toxemia, Urinary Tract Inf.

46	Cataplex A	Epithelial tissue support. Essential for eyes/retinal development and maintenance. Prevents night blindness (forms visual purple). Resistance to infection and inflammation. Essential for development of healthy mucous membranes.
47	Symplex F	Supports the healthy function of ovaries, adrenal, pituitary, and thyroid glands
48	Ligaplex II	Supports tissue and joints to maintain connective tissue health especially for long-term support.
49	Symplex M	Supports the healthy function of the testes, adrenal, pituitary and thyroid glands.
50	B6 Niacinamide	Supports protein and fat metabolism. Adrenal hormone precursor. Carpal Tunnel Syndrome, Numbness in extremities, Pregnancy edema.
51	Zymex	Builds flora in the gut. GI Tract acidification. Kidney detoxification. Toxic Bowel.
52	Multizyme	Proteolytic enzymes (pancreatin, fig, almond, pineapple) without HCL. Complete protein breakdown, Anti-parasitic enzymes.
53	Gastrex	Complex of Okra, montmorillonite clay and other absorbing, healing agents to sooth irritated GI tissue.
54	Zymex II	Source of proteolytic enzymes for digestion of intestinal parasites. Contains no HCL. Flatulence, Protein digestion.
55	Cataplex E	Promotes all cell repair. Increases tissue resistance to stress. Supports skin, muscles, ligaments, tendons. Specific support to cardio-vascular system. Anti-scaring, Pituitary imbalance, Sex hormone imbalances, Viral Infections.
56	Thymex	Stimulates healing and defense mechanisms against bacterial and viral infections. Stimulates general thymus immune response.
57	Bio-Dent	Supports bone, teeth, and related tissue structures. Protein, enzyme, mineral deficit.
58	Linum B6	Flax seed oil concentrate. Source of Omega 3 unsaturated fatty (especially linolenic) acid. Hair, skin, nail support.
59	Ferrofood	Blood building anti-anemia factors. Red Blood Cell building support. Iron deficiency, Anemia, Pregnancy.
60	Choline	Supports the Liver. Useful in Intestinal Colic, Intolerance to gas-producing foods, Nausea from fatty foods, Liver disease, Hypertension.
